---

## **Optional Program for, November 22, 2024:**

The event will take place on Friday, November 22, all day at the center in Namur.<sup>6</sup>

Crésam is organizing an event focused on user participation in mental health services.

CRÉSaM is the Reference Center for Mental Health in Wallonia, supporting mental health professionals and their integration into the mental health care network.

---

## **NOTES**

<sup>1</sup> Each partner must confirm how many people will be present at the TPM and any dietary restrictions.

<sup>2</sup> [Province of Namur](#)

<sup>3</sup> Each partner has a very limited time to present their results, including goals, methodology, and outcomes—less than 10 minutes. Participants have pre-registered and received results via email. After the presentation, we ask each leader result to stay at the table to share their opinions on the next topic under discussion with the audience.

<sup>4</sup> A proposal was presented in Canada to potentially suggest to the public authority of Province of Namur, the creation of an *International Training Center for the development of Peer Support*. The idea can interest to everyone under the program Interreg Europe. The Canadian partner is not eligible for direct participation but may support the candidacy and, if the project is approved, be involved with the center.

**This process is non-binding for any party.**

**Co-funded by  
the European Union**

Jocelyn Deloyer, the European Projects Coordinator from CNP Saint-Martin, will have the opportunity to briefly present the Interreg program. If any partner is not interested or cannot participate in this potential future project, please let me know.

<sup>5</sup> This is a daily event, and we are invited to attend a round table coordinated by our colleague Fran, focusing on international experiences in peer support. Stéphane will represent the consortium, but everyone is welcome to join.

The event is organized by the *Mejorando Cada Día Foundation*, a movement comprising users, families, and professionals in the mental health sector. The foundation is dedicated to promoting and developing projects that propose new care models. Along with other entities, it is working on a training and professionalization initiative.

For the event's main goals and the full program, please visit: [Full Program](#).

<sup>6</sup> This event is supported by CRÉSaM, including the topic of peer support. Baptiste participate, Professor of the School of Social Work, from the University of Sherbrooke (Canada) will share the *Lessons Learned in Quebec - Towards a Collective Voice in Mental Health*.

The event will be conducted in French.

Stéphane is our contact for this proposal.
